

Destinator Mapping Installation Guide

SD Card Re-install Use Only (Please Follow the steps)

1. Destinator Console Installation

- Insert the Destinator auto run CD or DVD to PC. After Destinator Console Program installed, select the mapping area to be installed. While mapping data processing finished, Please exit the Destinator Console program. (Please check the User Manual for the detail installation procedure)

2. SD Card Maps Installation

- Explorer the Mapping CD or DVD, copy the whole “Map” folder and past into the SD card
- Go to SD directory, Right Click on the “Map” folder and select “Property”, and then un-check “Read-only” function.

3. Slide Player Installation

- Copy the whole “slideplayer” folder and paste into the SD card
